Promoting Literacy(PreK-5)	This session will provide parents and caregivers an understanding of literacy, the components of reading instruction, and the impact of literacy on English language development. Walk away with examples and ideas of how they can help their child work on literacy skills at home.
Reading Hints for Early Teens and Tweens (Grades 6-8)	This session will provide parents and caregivers an understanding of literacy and strategies to build academic language at home. Parents will also learn ways to motivate their children to read and enjoy informational text and literature.
The Writing Process: A Make & Take Session (PreK-5)	This make and take workshop will guide parents and students step-by-step through the writing process. Parents will take home a writing folder with information to help their child with pre-writing, drafting, revising, editing, and publishing.
Textbook Detective (Grades 6-12)	A textbook/eTextbook is a powerful tool in increasing comprehension in content areas. This course offers strategies to help your child learn to navigate a textbook/eTextbook effectively.
STEM Engineering Adventures (PreK-8)	This course is designed to spark interest in Science, Technology, Engineering, and Math practices. Parents will experience engineering challenges such as building a water tower, and a parking garage, using inexpensive materials. Parents will receive materials to engage their family in similar challenges at home.
Drop. Stop. Don't Pop! Launching into Design and the Scientific Process (Grades 3 – 8)	Inspire future scientists and engineers! Families will work as an engineering team to build an amusement park ride with inexpensive materials. Parents will learn how to work with their children and guide them in creating a science and engineering board with success.
Dare to Dive Into Data (Grades 3-8)	Dive into activities that provide opportunities to collect, organize, represent, and interpret data. Take a closer look at surprising results in real-world applications, by collecting and graphing data sets.
Data and DESMOS The Perfect Ordered Pair (Grades 8-12)	Data fluency is a must-have skill set in today's digital workplace. Success starts with knowing how to find the meaning in every dataset. Explore math with DESMOS, a free graphing calculator!
Attendance Matters: Helping Your Child Succeed in School (Elementary)	Good attendance is not just about your school's rules; it is an important part of school success. There is a strong link between regular, early attendance and success in school. Come and learn about what you can do to improve your child's chance for academic success!
Attendance Matters: Helping Your Child Succeed in School (Secondary)	Good attendance is not just about school policies; it is an important part of school success. There is a strong link between regular, consistent attendance and student achievement. Absenteeism is a red alert that students will drop out of high school. Come and learn what attendance includes, why it is important and how to develop family routines.
